

## Law Enforcement Lock Picking

Attendees at this training workshop will be instructed in the basics of picking and opening standard pin tumbler and disk wafer locks.

Pin tumbler locks are the most common lock in America found in practically every residential and business door. Disc wafer locks are commonly found on alarm box panels and utility boxes.

All attendees, in normal physical condition will be competent to pick locks upon the completion of training.

**Each attendee will receive a six piece stainless steel deluxe handled lock pick kit and case, and a lock cylinder for after course practice.**
